BALLISTICS TEST MADE OF SLUG FROM SANFORD'S BODY

This week a bullet removed from Johnny Sanford, 61, fishing camp operator was sent to the Bureau of Identification in Jackson for a ballistics test. The Sheriff said the test will determine if the bullet was fired from a .38 caliber revolver found in the residence of Buford Dees, who resides near Collins, Miss. Dees, who was picked up by Dale Shoemaker, Covington County Sheriff, after Sanford was shot by an unidentified man at his fishing camp on Rotten Bayou, was later released in custody of the sheriff awaiting further investigation.

Dees and Sanford, a former Covington County Sheriff, engaged in a shooting scrape nine years ago. Dees denied being in the vicinity of the fishing camp at the time of the shooting and said he had not seen Sanford for six years. No further action is expected in the case until results of the ballistics test are made known the sheriff stated.

Sanford is still on the seriously ill list at the Biloxi Veterans' Hospital; his condition is reported as improved, Ladner said.

Two Businesses Broken Into Ramsey's, Magnolia State

The E. J. Arceneaux garden has been selected "Garden of the Month" by the Bay-Waveland Garden Club. The lovely and colorful yard is an example of what can be accomplished with a small garden in a short time.

The Arceneauxs have been occupying their new home on Court street since last August when they sold and moved from their home on South Beach. The Frank Kiefer garden on Dunbar Avenue received honorable mention.

RED CROSS QUOTA ONLY FIFTY PERCENT IN: DRIVE NEAR CLOSE

Closing of the Hancock County Red Cross Chapter office is possible if the quota of \$3672 set for 1959 is not reached, Robt. Hamilton and W. Ray Gordon, Co-chairman of the Hancock County Fund Drive said.

No appreciable contributions have been collected since last week; approximately 50% of the goal has been reached, the chairman stated. The amount collected to date will not permit continued operation of the local office which has been operating for 25 years.

In an effort to prevent closing of the office, the drive has been extended through April. The local chapter plays an important role in aiding military personnel. Applying for emergency leave through military channels is almost impossible for anyone except a Red Cross representative. In time of disaster the Red Cross is always available.

In Hancock County over \$200,000 was expended during the 1947 hurricane. The possibility of the county needing sizeable amounts of disaster relief in the future looms as a great probability since it is located in an area hit often by severe storms and hurricanes. Residents of the county are urged to contribute now to assure the continued operation of the local chapter.

BROTHER EDMUND 50 YEARS IN ORDER DIED LAST WEEK

Brother Edmund, long-time teacher, prefect and secretary who labored for over 25 years of his 50 years as a Brother of the Sacred Heart in Bay St. Louis at St. Stanislaus College, passed away in Mercy Hospital, New Orleans, April 2. A Requiem Mass was sung for the repose of his soul on April 4 by the Rev. Father Adrian Mercier of Our Lady of the Gulf Church in the College Chapel. Burial services followed in St. Stanislaus Cemetery.

Brother Edmund during his career had always been active in all phases of school activities. He was known as a director of plays and minstrels, as well as moderator of the school paper. The last two decades saw Brother Edmund incapacitated because of a spinal injury. He continued in semi-retirement at St. Stanislaus until a sharp decline in early November prompted the doctors to have him transferred. —Indianapolis, Vicksburg, Bay St. Louis, Mobile, Donaldsonville, Alexandria and Baton Rouge were the scene of his Apostolic activities.

Brother Edmund, who joined the Order of the Brothers of the Sacred Heart June 12, 1907, made his first vows August 15, 1909.

He served as prefect at Stanislaus for almost 27 years and as secretary of SSC Alumni for 12 years. "THE ROCK-A-CHAW," School Newspaper was founded by the late brother in 1927.

Born June 11, 1893, he was the son of the late James F. O'Hara and June Gibson O'Hara. Survivors include 2 brothers, James O'Hara of Jamaica, N. Y. and Thomas

office in Ramsey's Dept. Store and the Magnolia State Supply Company building were broken into Saturday night.

Dr. Ramsey said when he entered the store around 10:15 p. m. to turn out the lights and make a routine check he heard a noise upstairs. He called Deputy Sheriff Lathan Garriga from a phone across the street and check of the premises was made but the culprit had already made a getaway.

A ladder, reportedly taken from the Bay Mercantile Company, was used to get onto the roof. Dr. Ramsey said the robber apparently attempted to enter the store through a window leading to the beauty parlor as it had been pried; however, steel bars across the opening prevented entry.

The place was entered by cutting a screen and prying a window in the rear of the building. The drawers of the desk in the dental office were ransacked, the door of the dental supply cabinet and other cabinet doors were opened, Dr. Ramsey added.

Sheriff Lader said the Magnolia State Supply building had also been entered, but nothing was reported stolen from there or Ramsey's.

No legible fingerprints were found, the Sheriff said. Investigating officers were Sheriff Lader, Deputy Garriga and City Police Officers Julius Webb and Pat Garcia.

Robert Poyadou, 20, Given Suspended Sentence

Robert Poyadou, a 20-year-old sailor home on leave was tried in City Court Monday by Mayor John A. Scaife. He was found guilty of obstructing and impeding a police officer and of assault and battery and was given a 30-day suspended sentence on good behavior.

Poyadou was wounded in the leg when City Police officer, Julius Webb's pistol discharged as Poyadou attempted to intervene in a scuffle between Webb and Frank Schoonmaker.

Weber said Schoonmaker attacked him on Mar. 26, apparently because the officer had given him a ticket for speeding earlier in the evening. Schoonmaker charged with assault and battery with intent, has been bound over to await action of the grand jury in September.

Justice of the Peace Nolan Ladner said Schoonmaker was bound over after waiving a preliminary hearing. He was released under \$500 bond.

WAVELAND STATEMENT

W. E. (BUCKY) MOORE

This statement will serve as my announcement for re-election as Public Service Commissioner of the Southern Dist. of Mississippi. I was born and raised in McComb, Pike County, and attended elementary and high school there. I also attended Pearl River Junior College at Poplarville and Loyola University in New Orleans.

I served in the United States Navy during World War II and after the war served as Sheriff of Pike County. I am a member of the American Legion, Lions Club and a member of the Baptist Church.

The office of Public Service Commissioner is an important office as the Commission regulates the business of railroads, motor carriers, telephone and gas companies and other utilities. My experience of nearly four years will be very helpful in rendering the people of the Southern District better service if their vote returns me to this office.

The Public Service Commission has decided many important rates during its present term. The Public Service Commission denied rate increase to the Southern Bell Telephone Company and the Chancery Court affirmed the decision of the Commission. The case is now pending on appeal in the State Supreme Court. The Public Service Commission also refused to allow rate increases sought by United Gas Corporation. This case is now pending on appeal in the Chancery Court.

It is my sincere belief I have made every effort to protect the rights of the people, and with valuable experience behind me I can do a better job in the future. I am, therefore, asking you to re-elect me to this office. To the best of my ability I will give sober, efficient and conscientious service in the consideration of all matters coming before me as a member of the Public Service Commission.

Thanks Public

Thanks to generous Mississippians for their contribution in the effort and money are extended by the Mississippi Easter Seal Society. The President, D. J. Bort, Jr., Vicksburg, said:

Because of the response to the 1958 Miss. Easter Seal campaign, Bort said, "Mississippi is assured of having an Easter Seal program for its thousands of crippled children and adults."

Under the direction of the Easter Seal Professional Advisory Committee and Board of Trustees, plans will be completed in the very near future to provide treatment centers throughout the state to handle the unmet needs of those crippled by accident, disease or birth defects in addition to those with speech disorders. At this center, various types of therapy, including occupational, speech and physical therapy, can be offered to residents of the surrounding geographical area, Bort said.

Announcement is made also of the opening of the Easter Seal Rehabilitation Center between Biloxi and Gulfport, under the sponsorship of the Mississippi Gulf Coast Area Society for Crippled Children and Adults, an affiliate of the Miss. Easter Seal Society. The center serves patients who are referred for treatment by physicians from the six county Gulf Coast area. Rehabilitative therapy is given by a registered, physical therapist, Miss Ellymae Rottenstine.

Other such treatment centers are being organized in Tupelo, Columbus, and Vicksburg. Funds derived from the sale of Easter Seals are the main source of support for such centers.

TREES AN IMPORTANT FACTOR IN STATE'S ECONOMY
Mississippians are becoming increasingly aware that forestry is an important factor in our economy, contributing more than \$350 million annually to the state's progress and prosperity. The South and our State show every indication of its intention to keep pace with the anticipated needs in the field of forestry. An estimated 150 million tree seedlings will be planted during the current year. A plentiful supply of trees must be continually available in Mississippi shows every indication of its intention to keep pace with the anticipated needs in the field of forestry.

JOHNNY SANFORD WHO WAS SHOT REPORTEDLY IMPROVED
Johnny Sanford, operator of Johnny's Fishing Camp on Roanoke Bayou who was critically wounded by an unidentified assailant March 17, is reported in an improved condition at Biloxi Veterans' Hospital.

Sanford was shot once in the abdomen when he opened his camp door early last Tuesday morning in answer to a call. Sheriff Sylvan Ladner said his office is checking on a report of several persons asking directions to the fishing camp early on the day of the shooting.

The Mississippi Highway Patrol is conducting a ballistics test on a second slug fired by Sanford's attacker, which was lodged in the wall of Sanford's cabin.

Joe Smith Reported Improved After Stabbing
Joe Smith of Nicholson, who was critically stabbed during an argument with another man at a club near the Pearl River-Hancock line March 18, is reported in an improved condition.

Smith was confined to Crosby Memorial Hospital in Piquette. Sheriff Ladner said Smith gave a deputy sheriff a statement Sunday identifying his attacker.

The Sheriff said a warrant has been issued charging the man with assault and battery with intent, but he declined to divulge his identity pending the man's arrest.

The Nicholson man was stabbed three times in the abdomen and was cut across the neck in a fight reportedly caused by domestic troubles.

UNIVERSITY HOSPITAL FINE INVESTMENT
Mississippi made a good investment when it built the University Hospital in Jackson in 1955 and set up a four-year medical school. The school and hospital has 270 medical students, twenty graduate students, 49 nursing students, with a total of 360 students of all types, plus 50 residents and 24 internes. The school has 55 full time faculty members and 150 voluntary co-operating physicians in Jackson. The University Hospital now gives about 5,000 blood transfusions annually, 350,000 laboratory technical processes, 30,000 examinations and treatments for cancer and provides many other important services to the health of Mississippi's citizens.

3300 File For Home Exemption

Approximately 3300 applications for homestead exemption were filed for 1959, Tax Assessor Claiborne Ladner said this week. About 150 who were qualified to file failed to do so, he added.

The number filing this year exceeded the number who made applications last year Ladner stated.

The deadline for filing was April 1.

BEWARE OF ILLEGAL TERMITE OPERATORS
Home owners should be on the watch for illegal termite control operators with the sign of spring and warm weather. This is a warning issued by the Entomologist and Executive Officer of the State Plant Board located at Mississippi State University. Fake operators who have not been licensed by the State Plant Board will prey upon home owners this spring when the termites begin to swarm. A man arrested in Pearl River County took \$177.20 from an elderly lady in 1957 claiming that her house needed treating for termites. In case of termites, home owners are advised to get 3 competitive bids from termite control companies that are licensed by the State Plant Board. The unlicensed termite control men seem to prey upon elderly people, saying that their house is badly damaged and for a nominal fee the termites can be exterminated. The State Plant Board is a department of the state, and one of its many functions is to advise and license termite and pest control operators.

58,000 FARM PONDS ESTIMATED IN MISSISSIPPI
Farm ponds dot the Mid-South countryside like pins on a territorial sales map. An estimated 58,000 farm ponds are in Mississippi. They are being used for stock watering, irrigation, recreation, flood prevention, and fish production. Where fish production as a major purpose of a pond, weed control and fertilization are important; and this is the time of year to fertilize ponds. Fertilizer helps the growth of plankton, an algae-microscopic plant which is the pasture for insect larvae. The larvae feed the bluegills and the little bluegills are eaten by the bass and bream.

SWEETPOTATO PLANT GROWERS LIST AVAILABLE APRIL 1ST
A list of all Mississippi certified sweetpotato plant growers is being prepared and will be ready for distribution around April 1. The list will contain the names and addresses of the certified growers and will also give the varieties and bushels bedded for the production of plants. Certified sweetpotato plants are tied in bundles of 100 with certificate tape which gives the grower's number and the year of production. The tape this year has emerald green edges and is printed in green ink. Sweetpotato plants which are not tied with official certification tape and accompanied by a valid Miss. sweetpotato tag giving the name and address of grower are being sold illegally. Such plants may be diseased and infect the soil so that potatoes cannot be profitably grown on it for many years. Requests for the list of certified sweetpotato plant growers should be addressed to the State Plant Board at State College.

A Priceless Heritage

Open Letter To Mississippians

That the South is different from other sections of a country composed of geographical parts goes without saying, just as the North, the East and the West are each different. The South is endowed with a definite culture, a civilization deeply enriched by traditions peculiar to itself.

By reputation the Deep South, of which Mississippi is an integral part, embraces a good portion of the country's genuine hospitality, animated warmth and unaffected friendliness.

The character of Mississippians may have been influenced by being so long primarily a farming people, for their culture sprang from a fertile soil. Mellowed by a mild climate, watered with abundant rainfall, it is no wonder that we have enjoyed a more leisurely prosperity than that produced in more rugged, drier, colder climes.

Now the South undergoes economic revolution. Capitalizing on her natural resources, industrial development is in full swing.

In 1900 the South had only 9 percent of the nation's manufacturing facilities, today

she has 22 percent of its plants and they are on the increase. Between 1946 and 1956 industrial development in the South rose 22 percent as compared with a national increase of only 9 percent. With one-fourth of the country's land area and population, the South now produces one-half its minerals and 39 percent of its chemicals.

Progressive Mississippi, in step with this economic revolution, with its timber reserves, its navigable waterways and its oil and gas and many other resources, faces a prosperous future.

But her greatest asset is still her people, who have long since passed through the American melting pot. Overcoming adversity, triumphing over poverty, with patience and persistence, character becomes her priceless heritage. If Mississippians can preserve their pronounced individuality in changing times, when others would have them conform to some rigid pattern, men and money will continue to come our way, seeking opportunity where freedom is instinctive and personal liberty a tradition.

Jerry Ward's Cinemascope production for Twentieth Century-Fox of William Faulkner's "The Sound and the Fury" one of the most important literary properties of our time, will open Sunday and Monday at the A&G Theatre.

Yul Brynner, Joanne Woodward and Margaret Leighton head a powerful cast which enacts this emotional tour de force that probes into the lives of an old and once proud Southern family.

It is both a story of weakness and strength, of absorbing interest and excitement.

Set in the mythical town of Jefferson, Mississippi, as are most of the Noble and Pulitzer Prize winning author's stories the drama revolves around the personality of Jason Compson, the adopted son of the family, who tries to free at least one member of the Klan, Quentin, his stepfather's illegitimate daughter, from the blight that had plagued them so long.

Jason's personality, hard and dynamic, is the motivating force that relentlessly drives the film forward.

One of the most positive success stories Hollywood oracles have forecast in some time is that of John Gavin, who achieved stardom in his first motion picture, Universal-International's "A Time to Love and a Time to Die," and is now starred opposite Lana Turner in "Imitation of Life" also from Universal, which opens at the Legion Theatre, Friday April 17.

Virtually all of Hollywood's evaluators of stardom predict top rank for the dark six-foot-four young man with the quiet smile and rarely has a studio placed as much faith in a newcomer as Universal did when Gavin, after only slight experience in three films on the lot, was picked for the lead in "A Time to Love and a Time to Die." From all indications, that faith was justified just as previous gambles of Universal on Tony Curtis, Jeff Chandler, Rock Hudson and Audie Murphy had all paid off.

In "Imitation of Life" Gavin essays the difficult role of an ambitious yet sentimental young man who sees Lana Turner become meteorically successful, carries a quiet love for her for 10 years, and then finds to his dismay that Lana's daughter, play-

ing trip, Mr. and Mrs. Higgins will be at home in a cottage on Union Street.
